

A-552-803
Investigation
Public Document
IA/III/IX: ED

February 21, 2008

TO ALL INTERESTED PARTIES:

On January 22, 2008, the Department of Commerce (“Department”) initiated an antidumping duty investigation to determine whether uncovered innerspring units from the Socialist Republic of Vietnam are being sold in the United States at less than fair value.

In advance of the issuance of the antidumping questionnaire, we ask that you respond to the questions in Attachment I and II requesting information on the quantity and U.S. dollar sales value of all exports to the United States of uncovered innerspring units. A definition of the scope of the investigation is included in Attachment III, and general instructions for responding to this letter are contained in Attachment IV. **Please be advised that receipt of this letter does not indicate that you will be chosen as a mandatory respondent or guaranteed separate rates status. Your response to this letter may be subject to on-site verification by Department officials.**

Your response is due no later than **5:00 p.m. on March 13, 2008**. Please note that, due to time constraints in this investigation, we will not be able to grant any extensions for the submission of quantity and value information.

Please note that all submissions to the Department must be served on all interested parties. The service instructions are included in Attachment IV. The list of interested parties may be found at <http://web.ita.doc.gov/ia/webapotrack.nsf>.

We appreciate your attention to these matters. Please contact Eugene Degnan at (202) 482-0414 or Eugene_Degnan@ita.doc.gov, or Robert Bolling at (202) 482-3434 or Robert_Bolling@ita.doc.gov, if you have any questions or comments.

Sincerely,

Robert A. Bolling

FILING ADDRESS:

U.S. Department of Commerce
International Trade Administration
AD/CVD Operations
1401 Constitution Avenue, NW, Room 1870
Washington, DC 20230
Attn: Robert Bolling and Eugene Degnan, Room 4416

On January 28, 2008, the Department of Commerce (“ the Department”) published in the Federal Register the initiation of the antidumping duty investigation to determine whether uncovered innerspring units from the Socialist Republic of Vietnam (“Vietnam”) are being sold in the United States at less than fair value during the period of investigation of April 1, 2007, through September 30, 2007.¹

Section 777A(c)(1) of the Tariff Act of 1930, as amended (“the Act”), directs the Department to calculate individual dumping margins for each known exporter and producer of the subject merchandise. Where it is not practicable to examine all known producers/exporters of subject merchandise, as is the case in investigation, section 777A(c)(2) of the Act permits the Department to examine either (1) a sample of exporters, producers or types of products that is statistically valid based on the information available at the time of selection; or (2) exporters and producers accounting for the largest volume of the subject merchandise from the exporting country that can be reasonably examined.

In advance of the issuance of the full antidumping questionnaire, we ask that you respond to Attachments I and II of this Quantity and Value Questionnaire requesting information on production and the quantity and U.S. dollar sales value of all exports to the United States of uncovered innerspring units ² from Vietnam during the period of April 1, 2007, through September 30, 2007.³ Full and accurate responses to the Quantity and Value Questionnaire from all participating respondents is necessary to ensure that the Department has the requisite information to appropriately select mandatory respondents.

The Department is also requiring all firms that wish to qualify for separate-rate status in this investigation to complete a separate-rate status application as described in the Notice of Initiation. In other words, the Department will not give consideration to any separate-rate status application made by parties that fail to timely respond to the Quantity and Value Questionnaire or fail to timely submit the requisite separate-rate status application.

To allow for the possibility of sampling and to complete this segment within the statutory time frame, the Department will be limited in its ability to extend the deadline for the response to the Quantity and Value Questionnaire.

¹See Initiation of Antidumping Duty Investigations: Uncovered Innerspring Units from the People’s Republic of China, South Africa, and the Socialist Republic of Vietnam, 73 FR 4817 (January 28, 2008) (Notice of Initiation).

² The scope of the merchandise subject to this investigation of uncovered innerspring units from Vietnam is identified in Attachment III to this questionnaire.

³If your company did not produce the merchandise under investigation, we request that these questions be immediately forwarded to the company that produces the merchandise and supplies it to you or your customers.

A definition of the scope of the merchandise subject to this review is included in Attachment III, and general instructions for responding to this Quantity and Value Questionnaire are contained in Attachment IV. **Your response to this questionnaire may be subject to on-site verification by Department officials.**

ATTACHMENT I
FORMAT FOR REPORTING QUANTITY AND VALUE OF SALES

In providing the information in the chart below, please provide the total quantity in pieces and total value (in U.S. dollars) of all your sales covered by the scope of this investigation (see enclosed scope description), produced in Vietnam, and exported/shipped to the United States during the period April 1, 2007, through September 30, 2007.

Additionally, if you believe that you should be treated as a single entity along with other named exporters, please complete the chart, below, both in the aggregate for all named parties in your group and, in separate charts, individually for each named entity. Please label each chart accordingly.

Market: United States	Total Quantity (In Pieces)	Terms of Sale ⁴	Total Value ⁵ (\$U.S.)
1. Export Price ⁶			
2. Constructed Export Price ⁷			
3. Further Manufactured ⁸			
Total			

⁴ To the extent possible, sales values should be reported based on the same terms (e.g., FOB).

⁵ Values should be expressed in U.S. dollars. Indicate any exchange rates used and their respective dates and sources.

⁶ Generally, a U.S. sale is classified as an export price sale when the first sale to an unaffiliated person occurs before the goods are imported into the United States.

⁷ Generally, a U.S. sale is classified as a constructed export price sale when the first sale to an unaffiliated person occurs after importation. However, if the first sale to the unaffiliated person is made by a person in the United States affiliated with the foreign exporter, constructed export price applies even if the sale occurs prior to importation. Do not report the sale to the affiliated party in the United States, rather report the sale made by the affiliated party to the unaffiliated customer in the United States.

⁸ Further manufacture or assembly (“further manufactured”) refers to merchandise that undergoes further manufacture or assembly in the United States before sale to the first unaffiliated customer.

ATTACHMENT II
ECONOMIC CHARACTERISTICS OF EXPORTERS/PRODUCERS

Please provide the following information for your company. If you believe that you should be treated as a single entity along with other named exporters, please provide the information requested below both in the aggregate for all named entities in your group and separately for each named entity. Please label each chart accordingly.

(1) **Production**

Market:	Total Quantity: (In Pieces)
Your total production of all merchandise meeting the description of uncovered innerspring units identified in Attachment III to this questionnaire, produced during the period of investigation ("POI") (regardless of the ultimate market destination). <u>See Attachment III: Description of Products Under Investigation.</u>	

(2) **U.S. Sales**

Merchandise	Total Quantity: (In Pieces)	Total Value (\$U.S.¹)
Merchandise under investigation your company produced and-shipped/exported to the United States during the POI.		
Merchandise under investigation exported/shipped to the United States by your company during the POI which was sourced from an unaffiliated supplier or suppliers (<u>i.e.</u> , not produced by your company).		
Merchandise under investigation produced by your company but exported/shipped through another Vietnamese company to the United States during the POI.		

¹ Values should be expressed in U.S. dollars. Indicate any exchange rates used and their respective dates and sources.

ATTACHMENT III DESCRIPTION OF PRODUCTS UNDER INVESTIGATION

The merchandise covered by each of the investigations is uncovered innerspring units composed of a series of individual metal springs joined together in sizes corresponding to the sizes of adult mattresses (*e.g.*, twin, twin long, full, full long, queen, California king, and king) and units used in smaller constructions, such as crib and youth mattresses. All uncovered innerspring units are included in this scope regardless of width and length. Included within this definition are innersprings typically ranging from 30.5 inches to 76 inches in width and 68 inches to 84 inches in length. Innersprings for crib mattresses typically range from 25 inches to 27 inches in width and 50 inches to 52 inches in length.

Uncovered innerspring units are suitable for use as the innerspring component in the manufacture of innerspring mattresses, including mattresses that incorporate a foam encasement around the innerspring.

Pocketed and non-pocketed innerspring units are included in this definition. Non-pocketed innersprings are typically joined together with helical wire and border rods. Non-pocketed innersprings are included in this definition regardless of whether they have border rods attached to the perimeter of the innerspring. Pocketed innersprings are individual coils covered by a “pocket” or “sock” of a nonwoven synthetic material or woven material and then glued together in a linear fashion.

Uncovered innersprings are classified under subheading 9404.29.9010 and have also been classified under subheadings 9404.10.0000, 7326.20.00.70, 7320.20.5010, or 7320.90.5010 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS subheadings are provided for convenience and customs purposes only, the written description of the scope of these investigations is dispositive.

ATTACHMENT IV GENERAL INSTRUCTIONS

Instructions for Filing the Response

The following instructions apply to all documents you submit to the Department during the course of this proceeding.

1. File your response in Washington, D.C. at:

AD/CVD Operations, NME Office 8
Import Administration
U.S. Department of Commerce
Fourteenth Street and Constitution Avenue, N.W.
Room 1870
Washington, D.C. 20230
Attn: Robert Bolling and Eugene Degnan

2. A person must file one copy of the business proprietary version of any document with the Department within the applicable time limit. By the close of business one business day after the date the business proprietary version is filed under paragraph (c)(2)(i) of this section, a person must file six copies of the final business proprietary version of the document with the Department. The final business proprietary version must be identical to the previous day's submission except for any bracketing corrections. Although a person must file six copies of the complete final business proprietary version with the Department, the persons may serve other persons with only those pages containing bracketing corrections.

Simultaneously with the filing of the final business proprietary version under paragraph (c)(2)(ii) of this section, a person must file three copies of the public version of such document (see § 351.304(c)) with the Department.

3. File the original and six copies of the proprietary version. However, if you file an electronic copy of the proprietary version in Word Perfect 6.1 (Word Perfect 7.0 and 8.0 are also acceptable), you need file only the original version and four copies. In case of any difference between the narrative response and the content of the electronic media, the narrative response is the controlling version. For either alternative, only one copy of sample printouts and electronic media containing sales files and cost files need be submitted.

File the original and four copies of the public version of your narrative response and attachments, including sample printouts.

4. Submit the required **certification of accuracy**. Providers of information and the person(s) submitting it, if different (e.g., a legal representative), must certify that they have read the submission and that the information submitted is accurate and complete. The Department cannot accept responses to the letter that do not contain the certification statements. A form for such certification is included in this Appendix. You may photocopy this form and submit a completed copy with each of your submissions.

5. Provide the required **certificate of service** with each proprietary version and public version submitted to the Department.
6. Request **proprietary treatment** for information submitted that you do not wish to be made publicly available. As a general rule, the Department places all correspondence and submissions received in the course of an antidumping proceeding in a public reading file. However, information deemed to be **proprietary information** will not be made available to the public.¹ If you wish to make a request for proprietary treatment for particular information, refer to sections 351.304 and 351.304(a)(2) of the Department's **regulations**. Submit the request for proprietary treatment no later than one business day following the submission of the proprietary version of your response to the letter accompanied by:
 - (1) a non-proprietary (public) version of your response that is in sufficient detail to permit a reasonable understanding of the information submitted in confidence,² and/or
 - (2) an itemization of particular information that you believe you are unable to summarize. State the reasons why you cannot summarize each piece of information.

Responses, or portions thereof, that are not adequately summarized may be returned to you and not used.

7. Submit the statements required regarding limited release of proprietary information under the provisions of an **administrative protective order** ("APO"). U.S. law permits limited disclosure to representatives of parties (e.g., legal counsel) of certain business proprietary information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:
 - (1) a statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or
 - (2) a statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that release.

¹ Pursuant to the Department's Policy Bulletin 05.1: Separate-Rates Practice and Application of Combination Rates in Antidumping Investigations Involving Non-Market Economy Countries (April 5, 2005), exporters are required to provide the Department with the names and contact information of all the producers whose merchandise they exported to the United States during the period of investigation, and are required to make public the names of their suppliers in order for the Department to assign combination rates in an investigation. Additionally, supplier names will not be considered proprietary information in situations where the Department has excluded the exporter from the investigation. Exclusions of non-producing exporters will be granted only to exporter/supplier combinations.

² Generally, numerical data are adequately summarized if grouped or presented in terms of indices or figures ranged within ten percent of the actual figure. If a particular portion of the data is voluminous, use ranged figures for at least one percent of the voluminous portion.

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. You must state in the upper right-hand corner of the cover letter accompanying your response whether you agree or object to release of the submitted information under APO. (See section 351.303 of our regulations for specific instructions.)³

8. Place brackets (“[...]”) around information for which you request business proprietary treatment. Place double brackets (“[[...]]”) around information for which you request proprietary treatment and which you do not agree to release under APO.
9. Provide to all parties whose representatives have been granted an APO (as listed in the cover letter or as listed in a subsequent letter from the Department) a complete copy of the submission, proprietary and public versions, except for that information which you do not agree to release under APO. If you exclude information because you do not agree to release it under APO, submit with your response to the Department a certificate of service and a copy of the APO version of the document containing the information that you agree may be released under APO. For parties that do not have access to information under APO, please provide a public version only.
10. Prepare your response in typed form and in English. Repeat the question to which you are responding in your narrative submission and place your answer directly below it.

³ If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (see section 351.304(d) of our regulations). However, any information which you withdraw will be taken out of the official record and will not be used in our determination.
