RE: Antidumping Duty Investigation of Circular Welded Carbon-Quality Steel Pipe
from the Socialist Republic of Vietnam

SUBJECT: Quantity and Value Questionnaire

Dear Sir or Madam,

On November 17, 2015, the Department of Commerce (Department) initiated an antidumping duty investigation to determine whether circular welded carbon-quality steel pipe (circular welded pipe) from the Socialist Republic of Vietnam (Vietnam) is being sold in the United States at less than fair value.

In advance of the issuance of the antidumping duty questionnaire, the Department asks that you respond to the questions in Attachment I to this letter, requesting information on the quantity and U.S. dollar sales value of all your sales to the United States during the period April 1, 2015, through September 30, 2015, of merchandise covered by the scope of this investigation, produced in Vietnam. The scope of the investigation is included in Attachment II to this letter, and general instructions for responding to this letter are contained in Attachment III. **Please be advised that receipt of this letter does not indicate that you will be chosen as a mandatory respondent because the Department may find it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Tariff Act of 1930, as amended (the Act). Also, please be advised that receipt of this letter does not guarantee separate rate status. Your response to this letter may be subject to on-site verification by Department officials.**

Your response is due to the Department no later than the close of business, **December 1, 2015**. *Please note that, due to time constraints in this investigation, the Department will be limited in its ability to extend the deadline for the response to the attached *Quantity and Value Questionnaire*.* All submissions to the Department must be accompanied by a Certificate of Accuracy from company officials and, if represented by legal counsel or other firm, a Certificate of Accuracy from the representative. Additionally, all submissions to the Department must be served on the appropriate interested parties. A list of interested parties may be found at <http://enforcement.trade.gov/apo/apo-svc-lists.html> under “Vietnam” and “Circular Welded Carbon-Quality Steel Pipe.” Certificates of service and accuracy are in Attachment IV. General

instructions for responding to this Quantity and Value Questionnaire are contained in Attachment III.

In the unlikely event that you have received this questionnaire after the deadline to respond, you MUST contact the Department official identified in the questionnaire within 5 days of receipt of the questionnaire to receive further instructions and a revised deadline for submission of the required information. Failure to do so may result in the presumption that you failed to cooperate by not acting to the best of your ability to comply with the request for information, and may use an inference that is adverse to your interests in selecting from the facts otherwise available, in accordance with section 776(b) of the Act.

If you fail to respond or fail to provide the requested quantity and value information, please be aware that the Department may find that you failed to cooperate by not acting to the best of your ability to comply with the request for information, and may use an inference that is adverse to your interests in selecting from the facts otherwise available, in accordance with section 776(b) of the Act.

In general, the Department has found that determinations concerning whether particular companies should be “collapsed” (*i.e.*, treated as a single entity for purposes of calculating antidumping duty rates), require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, the Department will not conduct collapsing analyses and will not collapse companies at the respondent selection phase of this investigation for purposes of respondent selection; please report volume and value data separately. Data pertaining to other, possibly affiliated, companies should be reported separately by those companies.

If you have any questions about this matter, please contact David Lindgren at (202) 482-3870.

Sincerely,

A handwritten signature in blue ink, appearing to read 'M. Hoadley', is written over a light blue horizontal line.

FORMAT FOR REPORTING QUANTITY AND VALUE OF SALES

In providing the information in the chart below, please provide the total quantity in kilograms (kg) and total value (in U.S. dollars) of all your sales to the United States during the period April 1, 2015, through September 30, 2015, of merchandise covered by the scope of this investigation (*see* Attachment II), produced in Vietnam.¹

Please include only sales exported by your company directly to the United States. However, if your company made sales to third-countries for which you have knowledge that the merchandise was ultimately destined for the United States, please separately identify these sales quantities and the location (*i.e.*, countries) to which you made the sales.

Even if you believe that you should be treated as a single entity along with other exporters, please do not report aggregate data for all of the companies that you believe should be treated as a single entity but separately report your company's quantity and value data below. Quantity and value data pertaining to other, possibly affiliated companies, that you believe should be treated together with your company as a single entity should be separately reported by those companies.

| Market: United States | Total Quantity (KGs) | Terms of Sale ² | Total Value ³ (U.S. Dollars) |
|--|-------------------------|-------------------------------|--|
| 1. Export Price ⁴ | | | |
| 2. Constructed Export Price ⁵ | | | |
| 3. Further Manufactured ⁶ | | | |
| Total | | | |

¹ Please use the invoice date when determining which sales to include within the period noted above. Generally, the Department uses invoice date as the date of sale, as that is when the essential terms of sale are set. If you believe that another date besides the invoice date would provide a more accurate representation of your company's sales during the designated period, please report sales based on that date and provide a full explanation.

² To the extent possible, sales values should be reported based on the same terms (*e.g.*, FOB).

³ Values should be expressed in U.S. dollars. Indicate any exchange rates used and their respective dates and sources.

⁴ Generally, a U.S. sale is classified as an export price sale when the first sale to an unaffiliated person occurs before the goods are imported into the United States.

⁵ Generally, a U.S. sale is classified as a constructed export price sale when the first sale to an unaffiliated person occurs after importation. However, if the first sale to the unaffiliated person is made by a person in the United States affiliated with the foreign exporter, constructed export price applies even if the sale occurs prior to importation. Do not report the sale to the affiliated party in the United States, rather report the sale made by the affiliated party to the unaffiliated customer in the United States. If you have sales of further manufactured merchandise, please report them under Item 3, rather than under Item 2.

⁶ "Further manufactured" refers to merchandise that undergoes further manufacture or assembly in the United States before sale to the first unaffiliated customer.

DESCRIPTION OF PRODUCTS UNDER INVESTIGATION

Scope of the Investigation

These investigations cover welded carbon-quality steel pipes and tube, of circular cross-section, with an outside diameter (O.D.) not more than nominal 16 inches (406.4 mm), regardless of wall thickness, surface finish (e.g., black, galvanized, or painted), end finish (plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (e.g., American Society for Testing and Materials International (ASTM), proprietary, or other), generally known as standard pipe, fence pipe and tube, sprinkler pipe, and structural pipe (although subject product may also be referred to as mechanical tubing). Specifically, the term “carbon quality” includes products in which:

- (a) iron predominates, by weight, over each of the other contained elements;
- (b) the carbon content is 2 percent or less, by weight; and
- (c) none of the elements listed below exceeds the quantity, by weight, as indicated:
 - (i) 1.80 percent of manganese;
 - (ii) 2.25 percent of silicon;
 - (iii) 1.00 percent of copper;
 - (iv) 0.50 percent of aluminum;
 - (v) 1.25 percent of chromium;
 - (vi) 0.30 percent of cobalt;
 - (vii) 0.40 percent of lead;
 - (viii) 1.25 percent of nickel;
 - (ix) 0.30 percent of tungsten;
 - (x) 0.15 percent of molybdenum;
 - (xi) 0.10 percent of niobium;
 - (xii) 0.41 percent of titanium;
 - (xiii) 0.15 percent of vanadium; or
 - (xiv) 0.15 percent of zirconium.

Covered products are generally made to standard O.D. and wall thickness combinations. Pipe multi-stenciled to a standard and/or structural specification and to other specifications, such as American Petroleum Institute (API) API-5L, is also covered by the scope of these investigations when it meets the physical description set forth above. Covered products may also possess one or more of the following characteristics: is 32 feet in length or less; is less than 2.0 inches (50mm) in nominal O.D.; has a galvanized and/or painted (e.g., polyester coated) surface finish; or has a threaded and/or coupled end finish.

Standard pipe is ordinarily made to ASTM specifications A53, A135, and A795, but can also be made to other specifications. Structural pipe is made primarily to ASTM specifications A252 and A500. Standard and structural pipe may also be produced to proprietary specifications rather than to industry specifications.

Sprinkler pipe is designed for sprinkler fire suppression systems and may be made to industry specifications such as ASTM A53 or to proprietary specifications.

Fence tubing is included in the scope regardless of certification to a specification listed in the exclusions below, and can also be made to the ASTM A513 specification. Products that meet the physical description set forth above but are made to the following nominal outside diameter and wall thickness combinations, which are recognized by the industry as typical for fence tubing, are included despite being certified to ASTM mechanical tubing specifications:

| O.D. in inches (nominal) | Wall thickness in inches (nominal) | Gage |

The scope of these investigations does not include:

- (a) pipe suitable for use in boilers, superheaters, heat exchangers, refining furnaces and feedwater heaters, whether or not cold drawn, which are defined by standards such as ASTM A178 or ASTM A192;
- (b) finished electrical conduit, i.e., Electrical Rigid Steel Conduit (aka Electrical Rigid Metal Conduit and Electrical Rigid Metal Steel Conduit), Finished Electrical Metallic Tubing, and Electrical Intermediate Metal Conduit, which are defined by specifications such as American National Standard (ANSI) C80.1-2005, ANSI C80.3-2005, or ANSI C80.6-2005, and Underwriters Laboratories Inc. (UL) UL-6, UL-797, or UL-1242;
- (c) finished scaffolding, i.e., component parts of final, finished scaffolding that enter the United States unassembled as a “kit.” A kit is understood to mean a packaged combination of component parts that contains, at the time of importation, all of the necessary component parts to fully assemble final, finished scaffolding;
- (d) tube and pipe hollows for redrawing;
- (e) oil country tubular goods produced to API specifications;
- (f) line pipe produced to only API specifications, such as API 5L, and not multi-stenciled; and
- (g) mechanical tubing, whether or not cold-drawn, other than what is included in the above paragraphs.

The products subject to these investigations are currently classifiable in Harmonized Tariff Schedule of the United States (HTSUS) statistical reporting numbers 7306.19.1010, 7306.19.1050, 7306.19.5110, 7306.19.5150, 7306.30.1000, 7306.30.5015, 7306.30.5020, 7306.30.5025, 7306.30.5032, 7306.50.5030, 7306.30.5040, 7306.30.5055, 7306.30.5085, 7306.30.5090, 7306.50.1000, 7306.50.5050, and 7306.50.5070. However, the product description, and not the HTSUS classification, is dispositive of whether the merchandise imported into the United States falls within the scope.

ATTACHMENT III

GENERAL INSTRUCTIONS

The following instructions apply to all documents you submit to the Department during the course of this proceeding.

A. Due Date

1. All submissions must be made electronically using the Department's ACCESS website at <http://access.trade.gov>. If an exception to the electronic filing requirement applies, you must address and manually submit your response to the address indicated on the cover page of this questionnaire. To determine if your response qualifies for manual filing, see the section on "Manual Filing" below. All laws, regulations, and other descriptive materials that supplement your responses should be submitted on the same date as the initial response.
2. The **business proprietary** response should be submitted on the day specified on the cover page of this questionnaire. The **public version** of the response may be filed one business day after the proprietary response.
3. An electronically filed document must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Time (ET) on the due date, unless an earlier time is specified. Where applicable, a submitter must manually file a document between the hours of 8:30 a.m. and 5:00 p.m. ET on the due date, unless an earlier time is specified.

B. Format

1. You are required to state in the upper right-hand corner of your cover letter the following information in the following format:
 - a. on the first line, indicate the case number stated on the cover page to this questionnaire;
 - b. on the second line, indicate the total number of pages in the document including cover pages, appendices, and any unnumbered pages;
 - c. on the third line, indicate the specific segment of the proceeding, (*e.g.*, investigation, administrative review, scope inquiry, suspension agreement, etc.) and, if applicable, indicate the complete period covered (10/01/14 – 03/31/15);
 - d. on the fourth line, indicate the Department office conducting the proceeding;
 - e. on the fifth and subsequent lines, indicate whether any portion of the document contains business proprietary information and, if so, list the page numbers containing business proprietary information; and indicate the business proprietary/public status of the document and whether you agree or

object to release of the submitted information under **administrative protective order** (APO) by stating one of the following:

- “Business Proprietary Document -- May Be Released Under APO,”
 - “Business Proprietary Document -- May Not Be Released Under APO,”
 - “Business Proprietary/APO Version-- May Be Released Under APO,” as applicable,
 - “Public Version,” or
 - “Public Document.”
2. Please include a “Re:” line on the cover letter of your response, or any other submissions you make during this proceeding. In the Re: line, briefly summarize the purpose of your submission, *e.g.*, “response to Quantity & Value questionnaire,” “case brief.”
 3. Prepare your response in typed form and in English (*see* 351.303(d) and (e) for these and other formatting requirements). Include an original and translated version of all pertinent portions of non-English language documents that accompany your response, including financial statements.
 4. It is your responsibility to contact the official in charge if subsequent to your filing there are events that affect your response (*e.g.*, changes in your cost accounting system are relevant to antidumping proceedings, and changes as a result of an audit are relevant to both antidumping and CVD proceedings).

C. Manual Filing

1. **All submissions must be filed electronically.** Only under the following four circumstances will the Department accept a hardcopy response that is manually filed:
 - Documents exceeding 500 pages in length may be filed manually (in paper form) in the APO/Dockets Unit. This is referred to as a “bulky document.”
 - Data files greater than 20 MB must be filed manually on CD-ROM or DVD.
 - If the ACCESS system is unable to accept filings continuously or intermittently over the course of any period of time greater than one hour between 12:00 p.m. and 4:30 p.m. ET or for any duration of time between 4:31 p.m. and 5:00 p.m. ET, then a person may manually file the document in the APO/Dockets Unit. The Department will provide notice of such technical failures on the ACCESS Help Desk line at 202-482-3150 and on the Enforcement and Compliance website, which is <http://www.trade.gov/enforcement>.

- Apart from the above, if you are unable to comply with the electronic filing requirement, as provided in 19 CFR 351.103(c), and in accordance with section 782(c) of the Tariff Act of 1930, as amended (the Act), you must promptly notify the official in charge and submit a full written explanation of the reasons you are unable to file the document electronically. You must also suggest alternative forms in which to submit the information. The Department will consider the ability of a submitter and may modify the electronic filing requirement on a case-by-case basis.
2. All manually filed documents must be accompanied by a cover sheet generated in ACCESS. For manually filed bulky documents, separator sheets must also be generated and used.
 3. If your response qualifies as a bulky document and you opt to file it manually, you must file two identical paper copies of the document. For all other authorized manual submissions, only one paper copy is required.
 4. Manual submissions must be addressed and submitted to:
Secretary of Commerce
Attention: Enforcement and Compliance, AD/CVD Operations Office VII
APO/Dockets Unit, Room 18022
U.S. Department of Commerce
Fourteenth Street and Constitution Avenue, N.W.
Washington, D.C. 20230

D. Certification

1. Submit the required **certification of accuracy**. Providers of information and the person(s) submitting it, if different (*e.g.*, a legal representative), must certify that they have read the submission and that the information submitted is accurate and complete. The Department cannot accept questionnaire responses that do not contain the certification statements. Forms for such certification are included as appendices to this questionnaire. You may photocopy this form and submit a completed copy with each of your submissions.
2. Provide the required **certificate of service** (included as an appendix) with each business proprietary document and public version submitted to the Department.
3. Signed certifications of accuracy and certificates of service should be scanned and appended to the appropriate electronic documents filed in ACCESS.

E. Business Proprietary Information and Summarization of Business Proprietary Information

1. Request business proprietary treatment for information submitted that you do not wish to be made publicly available. As a general rule, the Department places all

correspondence and submissions received in the course of an antidumping or countervailing duty proceeding in a public reading file. However, information deemed to be proprietary information will not be made available to the public. If you wish to make a request for proprietary treatment for particular information, refer to sections 351.304, 351.305, and 351.306 of the Department's regulations. You must submit the request for proprietary treatment at the same time as the claimed business proprietary information is submitted to the Department.

2. Utilize the "one-day lag rule" under 19 CFR 351.303(c)(2) if you wish an additional day to review the final bracketing of business proprietary information in a document and to prepare the required public version. The filing requirements under the one-day lag rule provide for a party to file only the business proprietary document within the applicable time limit (19 CFR 351.303(c)(2)(i)). By the close of business one business day after the date the business proprietary document is filed, the person must file the complete final business proprietary document (19 CFR 351.303(c)(2)(i)(ii)). The final business proprietary document must be identical to the original document except for any bracketing corrections.
3. By the close of business one business day after the date the business proprietary document is filed (refer to the "one-day lag rule" in the preceding paragraph), submit the public version of your response (19 CFR 351.303(c)(2)(i)(iii)). A public version must contain:
 - a. a non-proprietary (public) version of your response that is in sufficient detail to permit a reasonable understanding of the information submitted in confidence, and/or
 - b. an itemization of particular information that you believe you are unable to summarize. State the reasons why you cannot summarize each piece of information.

Note: The summarization requirement does not apply solely to the narrative portion of your response. It applies equally to worksheets and other appendices to your response, and even to sales and cost databases submitted in antidumping proceedings. Generally, numerical data, such as that provided in sales and cost databases in antidumping proceedings, are adequately summarized only if grouped or presented in terms of indices or figures ranged within 10 percent of the actual figure. If a particular portion of data is voluminous, use ranged figures for at least one percent of the voluminous portion.

Responses, or portions thereof, that are not adequately summarized may be rejected from the record of this proceeding.

4. Submit the statements required regarding limited release of business proprietary information under the provisions of an APO. U.S. law permits limited disclosure to representatives of parties (e.g., legal counsel) of certain business proprietary

information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:

- a. a statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or
- b. a statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that release.

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. As discussed above, you must state in the upper right-hand corner of the cover letter accompanying your questionnaire response whether you agree or object to release of the submitted information under APO (*e.g.*, May Be Released Under APO or May Not Be Released Under APO). (*See* section 351.304 of the Department's regulations for specific instructions.⁷)

5. Place brackets (“[]”) around information for which you request business proprietary treatment. Place double brackets (“[[]]”) around information for which you request proprietary treatment and which you do not agree to release under APO.
6. Provide to all parties whose representatives have been granted APO access and who are listed on the Department's most recent APO Service List, a complete copy of the submission--proprietary document and public version, except for that information which you do not agree to release under APO. (APO service lists, as well as public service lists, are maintained at <http://enforcement.trade.gov/apo/apo-svc-lists.html> under the “Vietnam” and “Circular Welded Carbon-Quality Steel Pipe.” If you exclude information because you do not agree to release it under APO, you must submit the complete business proprietary version, wherein information in double brackets has been excluded. This version of the response must be marked “Business Proprietary/APO Version-- May Be Released Under APO” on the cover page. For parties that do not have access to information under APO, please provide a public version only.

Note: A chart summarizing AD/CVD document filing requirements can be found at <http://enforcement.trade.gov/filing/index.html>. Detailed and supplemental information concerning APOs, including the APO Handbook, a complete set of APO regulations, and APO application forms and service lists, can be found at <http://enforcement.trade.gov/apo/index.html>.

⁷ If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (*see* 19 CFR 351.304(d)). However, any information which you withdraw will be taken out of the official record and will not be used in our determination.
