

75th ANNUAL REPORT of the

Foreign-

Trade

Zones

Board

to the

Congress

OF THE UNITED STATES

Foreign-trade zones (FTZs) – the U.S. variation on the general “free trade zone” concept – are secure areas under the supervision of U.S. Customs and Border Protection (CBP) that are considered outside the customs territory of the United States for the purposes of duty payment. Authority for establishing these facilities is granted by the Foreign-Trade Zones Board under the Foreign-Trade Zones Act of 1934, as amended (19 U.S.C. 81a-81u), and the Board’s regulations (15 C.F.R. Part 400). The Executive Secretariat of the Board is part of the Import Administration within the International Trade Administration of the U.S. Department of Commerce.

Foreign and domestic merchandise may, subject to FTZ Board and CBP regulations, be moved into zones for operations not otherwise prohibited by law, including storage, exhibition, manipulation, and manufacturing. The Board’s regulations require a case-by-case review for all manufacturing activity to be conducted in FTZs. Under zone procedures, the formal customs entry procedure and payment of duties are not required on the foreign merchandise unless and until customs entry is made for domestic consumption. For foreign merchandise that undergoes further processing in a zone before customs entry, the importer ordinarily has a choice of paying duties either on the original foreign materials or on the resulting finished product. Domestic goods moved into a zone for export can be considered exported upon entering the zone for purposes of excise tax rebates and drawback. All FTZ sites and activities remain within the jurisdiction of federal, state and local governments and agencies.

Each zone is managed locally by the “grantee” organization – generally a public or non-profit organization focused on trade and/or economic development. The FTZ Act requires each grantee to operate its zone as a public utility and to treat companies using the zone uniformly under like conditions. Traditionally, many zones have included sites at seaports or airports as well as some industrial parks, with the intent of attracting companies to the zone. Increasing numbers of zones are now opting to use the “Alternative Site Framework” made available by the Board beginning in December 2008, which enables a much quicker, simpler on-demand process to designate “subzones” or “usage-driven sites” at specific companies’ facilities.

The regulations of the Foreign-Trade Zones Board are published in the Code of Federal Regulations at Title 15, Part 400 (15 C.F.R. Part 400), and the regulations of U.S. Customs and Border Protection concerning zones at Title 19, Part 146 (19 C.F.R. Part 146). Information on foreign-trade zones is available on the FTZ Board’s website via: <http://www.trade.gov/ftz>.

INTRODUCTION

This document constitutes the report of the Foreign-Trade Zones (FTZ) Board to the Congress of the United States pursuant to 19 U.S.C. 81(p)(c). Unless otherwise noted, the data contained in this report pertains to the 2013 calendar year.

During the year, the FTZ Board received and docketed 108 requests, and issued 104 decisions. The FTZ Board's decisions included approving four new foreign-trade zones, the reorganization of 23 zones under the alternative site framework (ASF) and 65 applications and notifications for new or expanded production authority. Under delegated authority, the FTZ Board Staff processed an additional 180 requests that included minor boundary modifications and scope determinations.

There were 177 FTZs active during the year, with a total of 289 active production operations. Approximately 390,000 persons were employed at some 3,050 firms that used FTZs during the year, an increase from 370,000 employees in 2012. The value of shipments into zones totaled over \$835 billion, compared with \$732 billion the previous year (Appendix A). About 65 percent of the shipments received at zones involved domestic status merchandise. The level of domestic status inputs used by FTZ operations indicates that FTZ activity tends to involve domestic operations that combine foreign inputs with significant domestic inputs.

Warehouse/distribution operations received over \$264 billion in merchandise while production operations received over \$571 billion (68 percent of zone activity). The largest industries accounting for zone production activity include the oil refining, automotive, electronics, pharmaceutical, and machinery/equipment sectors. The main foreign-origin products received at zones are listed in Appendix B.

Exports (shipments to foreign countries) from facilities operating under FTZ procedures amounted to over \$79 billion (Appendix A). The export figures do not include certain indirect exports involving FTZ merchandise that undergoes further processing in the United States at non-FTZ sites prior to export.

Appendix C contains lists of the Top 25 zones and states for FTZ merchandise received and exported during the year. In addition, information on FTZ activity by state, as well as within each zone, is available in Appendix D¹.

The FTZ Board's notices on applications as well as information on specific zone sites can be found on the FTZ Board's website (www.trade.gov/ftz) under "Online FTZ Information System (OFIS)." In addition, the website contains contact information for each zone, a summary of all Board Orders, lists of Staff-level cases and other reference materials.

¹ The data by state and by zone in Appendix D is reported in ranges because it incorporates business-proprietary information.

¹ Domestic status merchandise includes both domestic-origin items and foreign-origin items that have been entered for consumption (duty-paid) prior to FTZ admission.

² Export figures are based on material inputs and do not include value added.

³ The number of approved FTZs is the sum of all zones approved by the FTZ Board, minus those that have lapsed or been terminated.

⁴ Active FTZs have at least one site or subzone in operation.
