of the

Board of Foreign-Trade Zones

Report

to the Congress

of the United States

U.S. FOREIGN-TRADE ZONES

Foreign-trade zones are secure areas under supervision of U.S. Customs and Border Protection (CBP) that are considered outside the customs territory of the United States for the purposes of duty payment. Located in or near customs ports of entry, they are the U.S. version of what are known internationally as free trade zones. Authority for establishing these facilities is granted by the Foreign-Trade Zones Board under the Foreign-Trade Zones Act of 1934, as amended (19 U.S.C. 81a-81u), and the Board's regulations (15 C.F.R. Part 400). The Executive Secretariat of the Board is located within Enforcement and Compliance of the U.S. Department of Commerce in Washington, D.C.

Foreign and domestic merchandise may, subject to FTZ Board and CBP regulations, be moved into zones for operations not otherwise prohibited by law involving storage, exhibition, assembly, manufacturing, and processing. All zone activity is subject to public interest review, and all production activity requires a case-by-case review. Under zone procedures, the usual formal customs entry procedure and payment of duties are not required on the foreign merchandise unless and until it enters customs territory for domestic consumption, in which case the importer may have a choice of paying duties either on the original foreign materials or the finished product. Domestic goods moved into a zone for export are considered exported upon entering the zone for purposes of excise tax rebates and drawback. The benefits obtained through FTZ procedures help encourage U.S. activity, employment and value added, often in competition with foreign alternatives. FTZ sites and activities remain within the jurisdiction of federal, state and local governments and agencies.

A foreign trade zone is created when a local organization, such as a city, county or port authority, applies to the FTZ Board for a grant to establish and operate a zone to serve a specifically defined geographic area. Upon approval of the zone by the FTZ Board, the organization becomes known as the FTZ "grantee". Grantees are then able to submit applications to the FTZ Board to establish FTZ sites or subzones for use by companies in that area. Under the FTZ Act, grantees are required to operate their zones as "public utilities" and provide "uniform treatment under like conditions" to companies using the zone.

The regulations of the Foreign-Trade Zones Board are published in the Code of Federal Regulations at Title 15, Part 400 (15 C.F.R. Part 400), and the regulations of U.S. Customs and Border Protection concerning zones at Title 19, Part 146 (19 C.F.R. Part 146). Information on foreign-trade zones is available of the FTZ Web site at: <http://www.trade.gov/ftz>.

INTRODUCTION

This document constitutes the report of the Foreign-Trade Zones (FTZ) Board to the Congress of the United States pursuant to 19 U.S.C. § 81p(c). Unless otherwise noted, the data contained in this report pertains to FTZ activity during the 2016 calendar year.

During the year, the FTZ Board received and docketed 88 requests, and issued 85 decisions. The FTZ Board's decisions included the establishment of two new foreign-trade zones, the reorganization or expansion of 16 zones under the alternative site framework (ASF), as well as decisions on 53 applications and notifications for new or expanded production authority. Under delegated authority, the FTZ Board Staff processed an additional 192 requests that included minor boundary modifications and scope determinations.

There were 195 FTZs active during the year, with a total of 324 active production operations. Over 420,000 persons were employed at some 3,300 firms that used FTZs during the year. The value of shipments into zones totaled over \$610 billion, compared with nearly \$660 billion the previous year (Appendix A). About 63 percent of the shipments received at zones involved domestic status merchandise. The level of domestic status inputs used by FTZ operations indicates that FTZ activity tends to involve domestic operations that combine foreign inputs with significant domestic inputs.

Warehouse/distribution operations received over \$224 billion in merchandise while production operations received over \$386 billion (63 percent of zone activity). The largest industries accounting for zone production activity include the oil refining, automotive, electronics, pharmaceutical, and machinery/equipment sectors. The main foreign-origin products received at zones are listed in Appendix B.

Exports (shipments to foreign countries) from facilities operating under FTZ procedures amounted to nearly \$76 billion (Appendix A). The export figures do not include certain indirect exports involving FTZ merchandise that undergoes further processing in the United States at non-FTZ sites prior to export.

Appendix C contains lists of the Top 25 zones and states for FTZ merchandise received and exported during the year. In addition, information on FTZ activity by state, as well as within each zone, is available in Appendix D^a.

The FTZ Board's notices on applications as well as information on specific zone sites can be found on the FTZ Board's website (www.trade.gov/ftz) under "Online FTZ Information System (OFIS)." In addition, the website contains contact information for each zone, a summary of all Board Orders, lists of Staff-level cases and other reference materials.

^a The data by state and by zone in Appendix D is reported in ranges because it incorporates business-proprietary information.
