**SUBJECT:** Administrative Review of the Antidumping Duty Order on Aluminum Extrusions from the People's Republic of China; 2020-2021: Issuance of Quantity and Value Questionnaire

To all interested parties:

On July 6, 2021, the Department of Commerce (Commerce) initiated an administrative review of the antidumping duty (AD) order on aluminum extrusions from the People's Republic of China (China).<sup>1</sup> In advance of the issuance of the initial AD questionnaire, Commerce asks that you respond to Attachment I to this letter by providing the requested information on the quantity and U.S. dollar sales value of all your sales to the United States during the period of review (POR) (May 1, 2020, through April 30, 2021) of merchandise covered by the scope of the order that was produced in China. The scope of the AD order is included in Attachment II to this letter, and general instructions for responding to this letter are contained in Attachment III to this letter. Also, an electronic copy of the quantity and value (Q&V) questionnaire may be found on the internet at the following address: <http://www.trade.gov/enforcement/news.asp>.

**Please be advised that receipt of this letter does not indicate that you will be chosen as a mandatory respondent because Commerce may find it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(e)(2) of the Tariff Act of 1930, as amended (the Act). Please note that your response to this letter may be subject to on-site verification by Commerce officials.**

Your response to the Q&V questionnaire is due to Commerce no later than **5:00 p.m. (EST) on August 20, 2021**. Please note that due to time constraints in this administrative review, Commerce does not intend to extend the deadline for responding to the attached Q&V questionnaire. All responses to the attached questionnaire must be made electronically using Commerce's ACCESS website at <http://access.trade.gov> (see General Instructions in Attachment III). In addition, all submissions to Commerce must be accompanied by a Certificate of Accuracy from company officials and, if represented by legal counsel or other firm, a Certificate of Accuracy from the representative. Further, all submissions to Commerce must be served on the appropriate interested parties. A list of interested parties may be found at <https://enforcement.trade.gov/apo/apo-svc-lists.html> under "People's Republic of China" and

**If you fail to respond or fail to provide the requested quantity and value information, please be aware that Commerce may find that you failed to cooperate by not acting to the best of your ability to comply with the request for information, and may use an inference that is adverse to your interests in selecting from the facts otherwise available, in accordance with section 776(b) of the Act.**

In the unlikely event that you have received this questionnaire *after* the deadline to respond, you **MUST** contact Commerce official identified in the questionnaire within 5 days of receipt of the questionnaire to receive further instructions and a revised deadline for submission of the required information. Failure to do so may result in the presumption that you failed to cooperate by not acting to the best of your ability to comply with the request for information, and may use an inference that is adverse to your interests in selecting from the facts otherwise available, in accordance with section 776(b) of the Act.

In general, Commerce has found that determinations concerning whether particular companies should be “collapsed” (*i.e.*, treated as a single entity for purposes of calculating AD rates), require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, Commerce will not conduct collapsing analyses at the respondent selection phase of this review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this antidumping proceeding (*i.e.*, investigation, administrative review, new shipper review or changed circumstances review).

For any company subject to this review, if Commerce determined or continued to treat, that company as collapsed with others, Commerce will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, Commerce will not collapse companies for purposes of respondent selection. Parties are requested to (a) identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding in which they were collapsed. Further, for each company, please report volume and value data separately. Parties should not include data for any other party, even if they believe they should be treated as a single entity with that other party. If a company was collapsed with another company or companies in the most recently completed segment of this proceeding where Commerce considered collapsing that entity, complete quantity and value data for that collapsed entity must be submitted. Data pertaining to other, possibly affiliated, companies should be reported separately by those companies.

To assist you in filing your response to this Q&V questionnaire, we have provided a checklist in Attachment V which covers many of the major filing requirements (*also see* General Instructions in Attachment III). The checklist should be submitted with your response to the Q&V questionnaire. Confirm that you have complied with the applicable items in the checklist by checking the appropriate item.

We appreciate your attention to these matters. Please contact Mark Flessner ([mark.flessner@trade.gov](mailto:mark.flessner@trade.gov)) at 202-482-6312 if you have any questions.

Sincerely,

On July 6, 2021, the Department of Commerce (Commerce) initiated the administrative review of the AD order on aluminum extrusions from China covering the period May 1, 2020, through April 30, 2021. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 86 FR 35481 (July 6, 2021).

Section 777A(e)(1) of the Tariff Act of 1930, as amended (the Act), directs Commerce to calculate individual subsidy rates for each known exporter and producer of the subject merchandise. Where it is not practicable to examine all known producers/exporters of subject merchandise, as is the case in this administrative review, section 777A(e)(2) of the Act permits Commerce to examine either (1) a sample of exporters, producers or types of products that is statistically valid based on the information available at the time of selection; or (2) exporters and producers accounting for the largest volume of the subject merchandise from the exporting country that can be reasonably examined.

In advance of the issuance of the AD questionnaire, we ask that you respond to Attachment I of this quantity and value (Q&V) questionnaire requesting the quantity and U.S. dollar sales value of all sales to the United States during the period May 1, 2020, through April 30, 2021, of merchandise covered by the scope of the order (*see* Attachment II), produced in China. A full and accurate response to the questionnaire is necessary to ensure that Commerce has the requisite information to appropriately select mandatory respondents.

A definition of the scope of the merchandise subject to this review is included in Attachment II, and general instructions for responding to this questionnaire are contained in Attachment III. **Your response to this questionnaire may be subject to on-site verification by Commerce officials.**

**ATTACHMENT I  
QUANTITY AND VALUE QUESTIONNAIRE**

In providing the information in the chart below, please provide the total quantity in **kilograms** and total value (in U.S. dollars) of all your sales to the United States during the period May 1, 2020, through April 30, 2021, of merchandise covered by the scope of the order (*see* Attachment II), produced in China.<sup>2</sup>

Please include only sales exported by your company directly to the United States. However, if your company made sales to third-countries for which you have knowledge that the merchandise was ultimately destined for the United States, please separately identify these sales quantities and the location (*i.e.*, countries) to which you made the sales. Please do not include any sales of subject merchandise manufactured in Hong Kong in your figures.

Even if you believe that you should be treated as a single entity along with other exporters, please do not report aggregate data for all of the companies that you believe should be treated as a single entity but separately report your company’s quantity and value data below. Quantity and value data pertaining to other, possibly affiliated companies, that you believe should be treated together with your company as a single entity should be separately reported by those companies.

<b>Market: United States</b>	<b>Total Quantity Kilograms</b>	<b>Terms of Sale<sup>3</sup></b>	<b>Total Value<sup>4</sup> (U.S. Dollars)</b>
1. Export Price <sup>5</sup>			
2. Constructed Export Price <sup>6</sup>			
3. Further Manufactured <sup>7</sup>			
<b>Total</b>			

<sup>2</sup> Please use the invoice date when determining which sales to include within the period noted above. Generally, Commerce uses invoice date as the date of sale, as that is when the essential terms of sale are set. If you believe that another date besides the invoice date would provide a more accurate representation of your company’s sales during the designated period, please report sales based on that date and provide a full explanation.

<sup>3</sup> To the extent possible, sales values should be reported based on the same terms (*e.g.*, FOB).

<sup>4</sup> Values should be expressed in U.S. dollars. Indicate any exchange rates used and their respective dates and sources.

<sup>5</sup> Generally, a U.S. sale is classified as an export price sale when the first sale to an unaffiliated person occurs before the goods are imported into the United States.

<sup>6</sup> Generally, a U.S. sale is classified as a constructed export price sale when the first sale to an unaffiliated person occurs after importation. However, if the first sale to the unaffiliated person is made by a person in the United States affiliated with the foreign exporter, constructed export price applies even if the sale occurs prior to importation. Do not report the sale to the affiliated party in the United States, rather report the sale made by the affiliated party to the unaffiliated customer in the United States. If you have sales of further manufactured merchandise, please report them under Item 3, rather than under Item 2.

<sup>7</sup> “Further manufactured” refers to merchandise that undergoes further manufacture or assembly in the United States before sale to the first unaffiliated customer.

## ATTACHMENT II DESCRIPTION OF PRODUCTS UNDER REVIEW

The merchandise covered by the order{s} is aluminum extrusions which are shapes and forms, produced by an extrusion process, made from aluminum alloys having metallic elements corresponding to the alloy series designations published by The Aluminum Association commencing with the numbers 1, 3, and 6 (or proprietary equivalents or other certifying body equivalents). Specifically, the subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 1 contains not less than 99 percent aluminum by weight. The subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 3 contains manganese as the major alloying element, with manganese accounting for not more than 3.0 percent of total materials by weight. The subject merchandise is made from an aluminum alloy with an Aluminum Association series designation commencing with the number 6 contains magnesium and silicon as the major alloying elements, with magnesium accounting for at least 0.1 percent but not more than 2.0 percent of total materials by weight, and silicon accounting for at least 0.1 percent but not more than 3.0 percent of total materials by weight. The subject aluminum extrusions are properly identified by a four-digit alloy series without either a decimal point or leading letter. Illustrative examples from among the approximately 160 registered alloys that may characterize the subject merchandise are as follows: 1350, 3003, and 6060.

Aluminum extrusions are produced and imported in a wide variety of shapes and forms, including, but not limited to, hollow profiles, other solid profiles, pipes, tubes, bars, and rods. Aluminum extrusions that are drawn subsequent to extrusion (drawn aluminum) are also included in the scope.

Aluminum extrusions are produced and imported with a variety of finishes (both coatings and surface treatments), and types of fabrication. The types of coatings and treatments applied to subject aluminum extrusions include, but are not limited to, extrusions that are mill finished (*i.e.*, without any coating or further finishing), brushed, buffed, polished, anodized (including brightdip anodized), liquid painted, or powder coated. Aluminum extrusions may also be fabricated, *i.e.*, prepared for assembly. Such operations would include, but are not limited to, extrusions that are cut-to-length, machined, drilled, punched, notched, bent, stretched, knurled, swedged, mitered, chamfered, threaded, and spun. The subject merchandise includes aluminum extrusions that are finished (coated, painted, *etc.*), fabricated, or any combination thereof.

Subject aluminum extrusions may be described at the time of importation as parts for final finished products that are assembled after importation, including, but not limited to, window frames, door frames, solar panels, curtain walls, or furniture. Such parts that otherwise meet the definition of aluminum extrusions are included in the scope. The scope includes the aluminum extrusion components that are attached (*e.g.*, by welding or fasteners) to form subassemblies, *i.e.*, partially assembled merchandise unless imported as part of the finished goods 'kit' defined further below. The scope does not include the non-aluminum extrusion components of subassemblies or subject kits.

Subject extrusions may be identified with reference to their end use, such as fence posts,

electrical conduits, door thresholds, carpet trim, or heat sinks (that do not meet the finished heat sink exclusionary language below). Such goods are subject merchandise if they otherwise meet the scope definition, regardless of whether they are ready for use at the time of importation. The following aluminum extrusion products are excluded: aluminum extrusions made from aluminum alloy with an Aluminum Association series designations commencing with the number 2 and containing in excess of 1.5 percent copper by weight; aluminum extrusions made from aluminum alloy with an Aluminum Association series designation commencing with the number 5 and containing in excess of 1.0 percent magnesium by weight; and aluminum extrusions made from aluminum alloy with an Aluminum Association series designation commencing with the number 7 and containing in excess of 2.0 percent zinc by weight.

The scope also excludes finished merchandise containing aluminum extrusions as parts that are fully and permanently assembled and completed at the time of entry, such as finished windows with glass, doors with glass or vinyl, picture frames with glass pane and backing material, and solar panels. The scope also excludes finished goods containing aluminum extrusions that are entered unassembled in a “finished goods kit.” A finished goods kit is understood to mean a packaged combination of parts that contains, at the time of importation, all of the necessary parts to fully assemble a final finished good and requires no further finishing or fabrication, such as cutting or punching, and is assembled “as is” into a finished product. An imported product will not be considered a “finished goods kit” and therefore excluded from the scope of the orders merely by including fasteners such as screws, bolts, *etc.* in the packaging with an aluminum extrusion product.

The scope also excludes aluminum alloy sheet or plates produced by other than the extrusion process, such as aluminum products produced by a method of casting. Cast aluminum products are properly identified by four digits with a decimal point between the third and fourth digit. A letter may also precede the four digits. The following Aluminum Association designations are representative of aluminum alloys for casting: 208.0, 295.0, 308.0, 355.0, C355.0, 356.0, A356.0, A357.0, 360.0, 366.0, 380.0, A380.0, 413.0, 443.0, 514.0, 518.1, and 712.0. The scope also excludes pure, unwrought aluminum in any form.

The scope also excludes collapsible tubular containers composed of metallic elements corresponding to alloy code 1080A as designated by the Aluminum Association where the tubular container (excluding the nozzle) meets each of the following dimensional characteristics: (1) length of 37 millimeters (“mm”) or 62 mm, (2) outer diameter of 11.0 mm or 12.7 mm, and (3) wall thickness not exceeding 0.13 mm.

Also excluded from the scope of this order are finished heat sinks. Finished heat sinks are fabricated heat sinks made from aluminum extrusions the design and production of which are organized around meeting certain specified thermal performance requirements and which have been fully, albeit not necessarily individually, tested to comply with such requirements.

Imports of the subject merchandise are provided for under the following categories of the Harmonized Tariff Schedule of the United States (HTSUS): 7606.12.3091, 7606.12.3096, 7604.21.0010, 7604.21.0090, 7604.29.1010, 7604.29.1090, 7604.29.3060; 7604.29.3090; 7604.29.5050; 7604.29.5090; 8541.90.00.00, 8708.10.30.50, 8708.99.68.90, 6603.90.8100,

### C. Manual Filing

1. **All submissions must be filed electronically.** Only under the following four circumstances will Commerce accept a hardcopy response that is manually filed:
  - Documents exceeding 500 pages in length may be filed manually (in paper form) in the APO/Dockets Unit. This is referred to as a “bulky document.”
  - Data files greater than 20 MB must be filed manually on CD-ROM or DVD.

**U.S. Department of Commerce**  
**1401 Constitution Avenue, NW**  
**Washington, D.C. 20230**

D. Certification

1. Submit the required **certification of accuracy**. Providers of information and the person(s) submitting it, if different (*e.g.*, a legal representative), must certify that they have read the submission and that the information submitted is accurate and complete. Commerce cannot accept a questionnaire response that does not contain the certification statements. Forms for such certification are included as an appendix to this questionnaire. You may photocopy this form and submit a completed copy with each of your submissions.
2. Provide the required **certificate of service** (included as an appendix) with each business proprietary document and public version submitted to Commerce.
3. Signed certifications of accuracy and certificates of service should be scanned and appended to the appropriate electronic documents filed in ACCESS.

E. Business Proprietary Information and Summarization of Business Proprietary Information

1. Request business proprietary treatment for information submitted that you do not wish to be made publicly available. As a general rule, Commerce places all correspondence and submissions received in the course of an antidumping or countervailing duty proceeding in a public reading file. However, information deemed to be proprietary information will not be made available to the public. If you wish to make a request for proprietary treatment for particular information, refer to sections 351.304, 351.305, and 351.306 of Commerce's regulations. You must submit the request for proprietary treatment at the same time as the claimed business proprietary information is submitted to Commerce.
2. Utilize the "one-day lag rule" under section 351.303(c)(2) of Commerce's regulations if you wish an additional day to review the final bracketing of business proprietary information in a document and to prepare the required public version. The filing requirements under the one-day lag rule provide for a party to file only the business proprietary document within the applicable time limit (section 351.303(c)(2)(i)). By the close of business one business day after the date the business proprietary document is filed, the person must file the complete final business proprietary document (section 351.303(c)(2)(i)(ii)). The final business proprietary document must be identical to the original document except for any bracketing corrections.
3. By the close of business one business day after the date the business proprietary document is filed (refer to the "one-day lag rule" in the preceding paragraph), submit the public version of your response (section 351.303(c)(2)(i)(iii)). A public version must contain:
  - (1) non-proprietary (public) version of your response that is in sufficient detail to permit a reasonable understanding of the information submitted in confidence, and/or
  - (2) itemization of particular information that you claim are unable to be summarized. State the reasons why you cannot summarize each piece of information.

Please note: The summarization requirement does not apply solely to the narrative portion of your response. It applies equally to worksheets and other appendices to your response, and even to sales and cost databases submitted in antidumping proceedings. Generally, numerical data, such as that provided in sales and cost databases in antidumping proceedings, are adequately summarized only if grouped or presented in terms of indices or figures ranged within 10 percent of the actual figure. If a particular portion of data is voluminous, use ranged figures for at least one percent of the voluminous portion.

Responses, or portions thereof, that are not adequately summarized may be rejected from the record of this proceeding.

4. Submit the statements required regarding limited release of business proprietary information under the provisions of an APO. U.S. law permits limited disclosure to representatives of parties (*e.g.*, legal counsel) of certain business proprietary information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:
  - (1) statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or
  - (2) statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that release.

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. As discussed above, you must state in the upper right-hand corner of the cover letter accompanying your questionnaire response whether you agree or object to release of the submitted information under APO (*e.g.*, May Be Released Under APO or May Not Be Released Under APO). (*See* section 351.304 of Commerce’s regulations for specific instructions.<sup>8</sup>)

5. Place brackets (“[ ]”) around information for which you request business proprietary treatment. Place double brackets (“[[ ]]”) around information for which you request proprietary treatment and which you do not agree to release under APO.
6. Provide to all parties whose representatives have been granted APO access and who are listed on Commerce’s most recent APO Service List, a complete copy of the submission--proprietary document and public version, except for that information which you do not agree to release under APO. (APO service lists, as well as public service lists, are maintained at: <https://enforcement.trade.gov/apo/apo-svc-lists.html> under “People’s Republic of China” and “Aluminum Extrusions (A-570-967) Administrative Review 5/1/17-4/30/18.”)

If you exclude information because you do not agree to release it under APO, you must submit the complete business proprietary version, wherein information in

<sup>8</sup> If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (*see* section 351.304(d) of our regulations). However, any information which you withdraw will be taken out of the official record and will not be used in our determination.

double brackets has been excluded. This version of the response must be marked “Business Proprietary/APO Version-- May Be Released Under APO” on the cover page. For parties that do not have access to information under APO, please provide a public version only.

### **Instructions relating to PROPRIETARY DOCUMENTS**

If you wish to treat any of the information contained in your Q&V Questionnaire response as proprietary information that you do not wish to be made publicly available, you must comply with items A and B below:

- A. You submitted a proprietary version of the document which meets requirements 1 through 7 below:

1. \_\_\_\_\_ The upper-right hand corner of the cover letter of your questionnaire response contains the following information:

Case No. A-570-967  
Total Number of Pages: XX  
Review: 05/01/2020 – 04/30/2021

APO stands for Administrative Protective Order. Administrative Protective Orders permit limited disclosure of proprietary information to representatives of parties (*e.g.*, legal counsel to parties) who have been granted APO access. **You should note that most business proprietary information is usually released by the submitters of the information under APO.** However, if you object to the release under APO of certain information contained in your Q&V Questionnaire response, you **must** list the information which you believe should not be released under APO, together with arguments supporting your objections

to release under APO.

3. \_\_\_\_\_ You have included the statement “Business Proprietary Treatment Requested” on the top of each page containing business proprietary information.
4. \_\_\_\_\_ You have placed brackets (“[ ]”) around the information that you consider proprietary which you do not wish to be made publicly available, but which may be released under APO.
5. \_\_\_\_\_ If you object to releasing certain proprietary information under APO, place double brackets (“[[ ]]”) around such information and create a separate APO version of the business proprietary document. The upper-right hand corner of the cover letter of the APO version of your questionnaire response should contain the following information:

Case No. A-570-967

Total Number of Pages: XX

Review: 05/01/2020– 04/30/2021

Office VI

**“Business Proprietary/APO Version - May be Released Under APO”**

**Business Proprietary Information deleted from pages XX**

6. \_\_\_\_\_ Information in double brackets should be removed from the APO version of your questionnaire response. Do not remove information in double brackets from the proprietary version of the questionnaire response filed with Commerce.
7. \_\_\_\_\_ Your Certificate of Service lists each company on the APO Service list at <https://enforcement.trade.gov/apo/apo-svc-lists.html>. If you created an APO version of your questionnaire response, provide the parties on the APO Service list with a copy of the **APO version** of your questionnaire response. If you **did not** create an APO version of your questionnaire response, provide the parties on the APO Service list with a copy of the **proprietary version** of your questionnaire response. **Do not** provide parties on the Public Service list with a copy of either the proprietary version or APO version of your questionnaire response.

B. You have created a public version of the proprietary document which meets requirements 1 through 3 below:

Office VI  
**“Public Version”**

2. \_\_\_\_\_ In the public version of the Q&V Questionnaire response, you have summarized all of the numeric data in the proprietary version of the Q&V Questionnaire response that you placed in brackets (“[ ]”). An acceptable method of summarizing the proprietary numbers in the public version is to report numbers in the public version that differ from the numbers reported in the proprietary version by no more than 10 percent. For example if you reported [200] in the proprietary version, you may summarize this figure in the public version of that document by reporting a number between [220] and [180].
  
3. \_\_\_\_\_ Your Certificate of Service lists each company on the Public Service list at <https://enforcement.trade.gov/apo/apo-svc-lists.html>.
