Investigation

POI: 01/01/2020 – 6/30/2020

E&C/Office III: PB/LRL

**Public Document**

August 4, 2020

Dear Sir or Madam:

On July 29, 2020, the Department of Commerce (Commerce) initiated an antidumping duty (AD) investigation to determine whether certain metal lockers and parts thereof from the People's Republic of China (China) are being sold in the United States at less than fair value.<sup>1</sup>

In advance of the issuance of the AD questionnaire, Commerce asks that you respond to the questions in Attachment I to this letter, requesting information on the quantity and U.S. dollar sales value of all your sales to the United States during the period January 1, 2020, through June 30, 2020, covered by the scope of this investigation, produced in China. The scope of the investigation is included in Attachment II to this letter, and general instructions for responding to this letter are contained in Attachment III. **Please be advised that receipt of this letter does not indicate that you will be chosen as a mandatory respondent because Commerce may find it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Tariff Act of 1930, as amended (the Act). Also, please be advised that receipt of this letter does not guarantee separate rate status. Your response to this letter may be subject to on-site verification by Commerce officials.**

Your response is due to Commerce no later than **August 12, 2020**. *Please note that, due to time constraints in this investigation, Commerce will be limited in its ability to extend the deadline for the response to the attached Quantity and Value Questionnaire.* All submissions to Commerce must be accompanied by a Certificate of Accuracy from company officials and, if represented by legal counsel or other firm, a Certificate of Accuracy from the representative. Additionally, all submissions to Commerce must be served on the appropriate interested parties. A list of interested parties may be found at <http://enforcement.trade.gov/apo/apo-svc-lists.html> under "People's Republic of China" and then "Steel Propane Cylinders." Certificates of service and accuracy are in Attachment IV. General instructions for responding to this Quantity and Value Questionnaire are contained in Attachment III.

In the unlikely event that you have received this questionnaire after the deadline to respond, you **MUST** contact the Commerce official identified in the questionnaire within five days of receipt of the questionnaire to receive further instructions and a revised deadline for submission of the required information. Failure to do so may result in the presumption that you failed to cooperate by not acting to the best of your ability to comply with the request for information, and may use

an inference that is adverse to your interests in selecting from the facts otherwise available, in accordance with section 776(b) of the Act.

If you fail to respond or fail to provide the requested quantity and value information, please be aware that Commerce may find that you failed to cooperate by not acting to the best of your ability to comply with the request for information, and may use an inference that is adverse to your interests in selecting from the facts otherwise available, in accordance with section 776(b) of the Act.

In general, Commerce has found that determinations concerning whether particular companies should be “collapsed” (*i.e.*, treated as a single entity for purposes of calculating AD rates), require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, Commerce will not conduct collapsing analyses and will not collapse companies at the respondent selection phase of this investigation for purposes of respondent selection; please report volume and value data separately. Data pertaining to other, possibly affiliated, companies should be reported separately by those companies.

Should you have any questions about this matter, please contact Patrick Barton at (202) 482-0012, or Laurel LaCivita at (202) 482-4243.

Sincerely,

A handwritten signature in black ink, appearing to read "Brendan Quinn", with a long horizontal flourish extending to the right.

### FORMAT FOR REPORTING QUANTITY AND VALUE OF SALES

In providing the information in the chart below, please provide the following:

- Total quantity in numbers of units sold;
- Total quantity in kilograms sold;  
(Please indicate which unit of measure you use in the normal course of business. If you do not record the quantity of your sales based on weight or piece, please so state; and,
- total value (in U.S. dollars)

of all your sales to the United States during the period January 1, 2020, through June 30, 2020, of merchandise covered by the scope of this investigation (*see* Attachment II), produced in China.<sup>2</sup>

Please include only sales exported by your company directly to the United States. However, if your company made sales to third-countries for which you have knowledge that the merchandise was ultimately destined for the United States, please separately identify these sales quantities and the location (*i.e.*, countries) to which you made the sales. Please do not include any sales of subject merchandise manufactured in Hong Kong in your figures.

Even if you believe that you should be treated as a single entity along with other exporters, please do not report aggregate data for all of the companies that you believe should be treated as a single entity but separately report your company's quantity and value data below. Quantity and value data pertaining to other, possibly affiliated companies, that you believe should be treated together with your company as a single entity should be separately reported by those companies.

Market: United States	Total Quantity [insert unit of measure]	Terms of Sale <sup>3</sup>	Total Value <sup>4</sup> (U.S. Dollars)
1. Export Price <sup>5</sup> 2. Constructed Export Price <sup>6</sup> 3. Further Manufactured <sup>7</sup>			
Total			

<sup>2</sup> Please use the invoice date when determining which sales to include within the period noted above. Generally, Commerce uses invoice date as the date of sale, as that is when the essential terms of sale are set. If you believe that another date besides the invoice date would provide a more accurate representation of your company's sales during the designated period, please report sales based on that date and provide a full explanation.

<sup>3</sup> To the extent possible, sales values should be reported based on the same terms (*e.g.*, FOB).

<sup>4</sup> Values should be expressed in U.S. dollars. Indicate any exchange rates used and their respective dates and sources.

<sup>5</sup> Generally, a U.S. sale is classified as an export price sale when the first sale to an unaffiliated person occurs before the goods are imported into the United States.

<sup>6</sup> Generally, a U.S. sale is classified as a constructed export price sale when the first sale to an unaffiliated person occurs after importation. However, if the first sale to the unaffiliated person is made by a person in the United States affiliated with the foreign exporter, constructed export price applies even if the sale occurs prior to importation. Do not report the sale to the affiliated party in the United States, rather report the sale made by the affiliated party to the unaffiliated customer in the United States. If you have sales of further manufactured merchandise, please report them under Item 3, rather than under Item 2.

<sup>7</sup> "Further manufactured" refers to merchandise that undergoes further manufacture or assembly in the United States before sale to the first unaffiliated customer.

### DESCRIPTION OF PRODUCTS UNDER INVESTIGATION

The scope of this investigation covers certain metal lockers, with or without doors, and parts thereof (certain metal lockers). The subject certain metal lockers are metal storage devices less than 27 inches wide and less than 27 inches deep, whether floor standing, installed onto a base or wall-mounted. In a multiple locker assembly (whether a welded locker unit, otherwise assembled locker unit or knocked down unit or kit), the width measurement shall be based on the width of an individual locker not the overall unit dimensions. All measurements in this scope are based on actual measurements. The subject certain metal lockers typically include the bodies (back, side, shelf, top and bottom panels), door frames with or without doors which can be integrated into the sides or made separately, and doors. The subject metal lockers typically are made of flat-rolled metal, metal mesh and/or expanded metal, which includes but is not limited to alloy or non-alloy steel (whether or not galvanized or otherwise metallically coated for corrosion resistance), stainless steel, or aluminum, but the doors may also include transparent polycarbonate, Plexiglas or similar transparent material or any combination thereof. Metal mesh refers to both wire mesh and expanded metal mesh. Wire mesh is a wire product in which the horizontal and transverse wires are welded at the cross-section in a grid pattern. Expanded metal mesh is made by slitting and stretching metal sheets to make a screen of diamond or other shaped openings. The doors are configured with or for a handle or other device that permit the use of a mechanical or electronic lock or locking mechanism, including, but not limited to: a combination lock, a padlock, a key lock, lever or knob lock, and a wireless lock. The subject locker may also enter with the lock or locking device included or installed. The doors or body panels may also include vents (including wire mesh or expanded metal mesh vents) or perforations. The bodies, body components and doors are typically powder coated, otherwise painted or epoxy coated or may be unpainted. The subject merchandise includes metal lockers imported either as welded or otherwise assembled units (ready for installation or use) or as knocked down units or kits (requiring assembly prior to installation or use).

The subject lockers may be shipped as individual or multiple locker units preassembled, welded, or combined into banks or tiers for ease of installation or as sets of component parts, bulk packed (*i.e.*, all backs in one package, crate, rack, carton or container and sides in another package, crate, rack, carton or container) or any combination thereof. The knocked down lockers are shipped unassembled requiring a supplier, contractor or end-user to assemble the individual lockers and locker banks prior to installation.

The scope also includes all parts and components of lockers made from flat-rolled metal or expanded metal (*e.g.*, doors, frames, shelves, tops, bottoms, backs, side panels, *etc.*) as well as accessories that are attached to the lockers when installed (including, but not limited to, slope tops, bases, expansion filler panels, dividers, recess trim, decorative end panels, and end caps) that may be imported together with lockers or other locker components or on their own. The particular accessories listed for illustrative purposes are defined as follows:

- a. Slope tops: Slope tops are slanted metal panels or units that fit on the tops of the lockers and that slope from back to front to prevent the accumulation of dust and debris on top of

the locker and to discourage the use of the tops of lockers as storage areas. Slope tops come in various configurations including, but not limited to, unit slope tops (in place of flat tops), slope hoods made of a back, top and end pieces which fit over multiple units and convert flat tops to a sloping tops, and slope top kits that convert flat tops to sloping tops and include tops, backs and ends.

- b. Bases: Locker bases are panels made from flat-rolled metal that either conceal the legs of the locker unit, or for lockers without legs, provide a toe space in the front of the locker and conceal the flanges for floor anchoring.
- c. Expansion filler panel: Expansion filler panels or fillers are metal panels that attach to locker units to cover columns, pipes or other obstacles in a row of lockers or fill in gaps between the locker and the wall. Fillers may also include metal panels that are used on the sides or the top of the lockers to fill gaps.
- d. Dividers: Dividers are metal panels that divide the space within a locker unit into different storage areas.
- e. Recess trim: Recess trim is a narrow metal trim that bridges the gap between lockers and walls or soffits when lockers are recessed into a wall.
- f. Decorative end panels: End panels fit onto the exposed ends of locker units to cover holes, bolts, nuts, screws and other fasteners. They typically are painted to match the lockers.
- g. End caps: End caps fit onto the exposed ends of locker units to cover holes, bolts, nuts, screws and other fasteners.

The scope also includes all hardware for assembly and installation of the lockers and locker banks that are imported with or shipped, invoiced or sold with the imported locker or locker system.

Excluded from the scope are wire mesh lockers. Wire mesh lockers are those with each of the following characteristics:

- (1) at least three sides, including the door, made from wire mesh;
- (2) the width and depth each exceed 25 inches; and
- (3) the height exceeds 90 inches.

Also excluded are lockers with bodies made entirely of plastic, wood or any nonmetallic material.

Also excluded are exchange lockers with multiple individual locking doors mounted on one master locking door to access multiple units. Excluded exchange lockers have multiple individual storage spaces, typically arranged in tiers, with access doors for each of the multiple individual storage space mounted on a single frame that can be swung open to allow access to all of the individual storage spaces at once. For example, uniform or garment exchange lockers are

designed for the distinct function of securely and hygienically exchanging clean and soiled uniforms. Thus, excluded exchange lockers are a multi-access point locker whereas covered lockers are a single access point locker for personal storage.

Also excluded are metal lockers that are imported with an installed electronic, internet-enabled locking device that permits communication or connection between the locker's locking device and other internet connected devices.

Also excluded are hardware and accessories for assembly and installation of the lockers, locker banks and storage systems that are separately imported in bulk and are not incorporated into a locker, locker system or knocked down kit at the time of importation. Such excluded hardware and accessories include but are not limited to bulk imported rivets, nuts, bolts, hinges, door handles, locks, door/frame latching components, and coat hooks. Accessories of sheet metal, including but not limited to end panels, bases, dividers and sloping tops, are not excluded accessories.

The subject certain metal lockers are classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 9403.20.0078. Parts of subject certain metal lockers are classified under HTS subheading 9403.90.8041. While HTSUS subheadings are provided for convenience and Customs purposes, the written description of the scope of the investigation is dispositive.

**ATTACHMENT III**  
**GENERAL INSTRUCTIONS**

**Instructions for Filing the Response**

The following instructions apply to all documents you submit to Commerce during the course of this proceeding.

**A. Due Date**

1. All submissions must be made electronically using Commerce's ACCESS website at <http://access.trade.gov>. If an exception to the electronic filing requirement applies, you must address and manually submit your response to the address indicated on the cover page of this questionnaire. To determine if your response qualifies for manual filing, see the section on "Manual Filing" below. All laws, regulations, and other descriptive materials that supplement your responses should be submitted on the same date as the initial response.
2. The **business proprietary** response should be submitted on the day specified on the cover page of this questionnaire. The **public version** of the response may be filed one business day after the proprietary response.
3. An electronically filed document must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Time (ET) on the due date, unless an earlier time is specified. Where applicable, a submitter must manually file a document between the hours of 8:30 a.m. and 5:00 p.m. ET on the due date, unless an earlier time is specified.

**B. Format**

1. You are required to state in the upper right-hand corner of your cover letter the following information in the following format:
  - a. on the first line, indicate the case number stated on the cover page to this questionnaire;
  - b. on the second line, indicate the total number of pages in the document including cover pages, appendices, and any unnumbered pages;
  - c. on the third line, indicate the specific segment of the proceeding, (*e.g.*, investigation, administrative review, scope inquiry, suspension agreement, etc.) and, if applicable, indicate the complete period covered (MM/DD/YY - MM/DD/YY);
  - d. on the fourth line, indicate the Commerce office conducting the proceeding;
  - e. on the fifth and subsequent lines, indicate whether any portion of the document contains business proprietary information and, if so, list the page numbers

containing business proprietary information; and indicate the business proprietary/public status of the document and whether you agree or object to release of the submitted information under **administrative protective order** (APO) by stating one of the following:

- “Business Proprietary Document -- May Be Released Under APO,”
  - “Business Proprietary Document -- May Not Be Released Under APO,”
  - “Business Proprietary/APO Version-- May Be Released Under APO,” as applicable,
  - “Public Version,” or
  - “Public Document.”
2. Please include a “Re:” line on the cover letter of your response, or any other submissions you make during this proceeding. In the Re: line, briefly summarize the purpose of your submission, *e.g.*, “response to Quantity & Value questionnaire,” “case brief.”
  3. Prepare your response in typed form and in English (*see* 351.303(d) and (e) for these and other formatting requirements). Include an original and translated version of all pertinent portions of non-English language documents that accompany your response, including financial statements.
  4. It is your responsibility to contact the official in charge if subsequent to your filing there are events that affect your response (*e.g.*, changes in your cost accounting system are relevant to antidumping proceedings, and changes as a result of an audit are relevant to both AD and countervailing duty proceedings).

#### C. Manual Filing

1. **All submissions must be filed electronically.** Only under the following four circumstances will Commerce accept a hardcopy response that is manually filed:
  - Documents exceeding 500 pages in length may be filed manually (in paper form) in the APO/Dockets Unit. This is referred to as a “bulky document.”
  - Data files greater than 20 MB must be filed manually on CD-ROM or DVD.
  - If the ACCESS system is unable to accept filings continuously or intermittently over the course of any period of time greater than one hour between 12:00 p.m. and 4:30 p.m. ET or for any duration of time between 4:31 p.m. and 5:00 p.m. ET, then a person may manually file the document in the APO/Dockets Unit. Commerce will provide notice of such technical failures on the ACCESS Help Desk line at 202-482-3150 and on the Enforcement and Compliance website, which is <http://www.trade.gov/enforcement>.

- Apart from the above, if you are unable to comply with the electronic filing requirement, as provided in 19 CFR 351.103(c), and in accordance with section 782(c) of the Tariff Act of 1930, as amended (the Act), you must promptly notify the official in charge and submit a full written explanation of the reasons you are unable to file the document electronically. You must also suggest alternative forms in which to submit the information. Commerce will consider the ability of a submitter and may modify the electronic filing requirement on a case-by-case basis.
- 2. All manually filed documents must be accompanied by a cover sheet generated in ACCESS. For manually filed bulky documents, separator sheets must also be generated and used.
- 3. If your response qualifies as a bulky document and you opt to file it manually, you must file two identical paper copies of the document. For all other authorized manual submissions, only one paper copy is required.
- 4. Manual submissions must be addressed and submitted to:  
**Secretary of Commerce**  
**Attention: Enforcement and Compliance, AD/CVD Operations Office III**  
**APO/Dockets Unit, Room 18022**  
**U.S. Department of Commerce**  
**Fourteenth Street and Constitution Avenue, N.W.**  
**Washington, D.C. 20230**

D. Certification

1. Submit the required **certification of accuracy**. Providers of information and the person(s) submitting it, if different (*e.g.*, a legal representative), must certify that they have read the submission and that the information submitted is accurate and complete. Commerce cannot accept questionnaire responses that do not contain the certification statements. Forms for such certification are included as appendices to this questionnaire. You may photocopy this form and submit a completed copy with each of your submissions.
2. Provide the required **certificate of service** (included as an appendix) with each business proprietary document and public version submitted to Commerce.
3. Signed certifications of accuracy and certificates of service should be scanned and appended to the appropriate electronic documents filed in ACCESS.

E. Business Proprietary Information and Summarization of Business Proprietary Information

1. Request business proprietary treatment for information submitted that you do not wish to be made publicly available. As a general rule, Commerce places all correspondence and submissions received in the course of an AD or countervailing duty proceeding in

a public reading file. However, information deemed to be proprietary information will not be made available to the public. If you wish to make a request for proprietary treatment for particular information, refer to sections 351.304, 351.305, and 351.306 of Commerce's regulations. You must submit the request for proprietary treatment at the same time as the claimed business proprietary information is submitted to Commerce.

2. Utilize the "one-day lag rule" under 19 CFR 351.303(c)(2) if you wish an additional day to review the final bracketing of business proprietary information in a document and to prepare the required public version. The filing requirements under the one-day lag rule provide for a party to file only the business proprietary document within the applicable time limit (19 CFR 351.303(c)(2)(i)). By the close of business one business day after the date the business proprietary document is filed, the person must file the complete final business proprietary document (19 CFR 351.303(c)(2)(i)(ii)). The final business proprietary document must be identical to the original document except for any bracketing corrections.
3. By the close of business one business day after the date the business proprietary document is filed (refer to the "one-day lag rule" in the preceding paragraph), submit the public version of your response (19 CFR 351.303(c)(2)(i)(iii)). A public version must contain:
  - a. a non-proprietary (public) version of your response that is in sufficient detail to permit a reasonable understanding of the information submitted in confidence, and/or
  - b. an itemization of particular information that you believe you are unable to summarize. State the reasons why you cannot summarize each piece of information.

***Note:** The summarization requirement does not apply solely to the narrative portion of your response. It applies equally to worksheets and other appendices to your response, and even to sales and cost databases submitted in antidumping proceedings. Generally, numerical data, such as that provided in sales and cost databases in antidumping proceedings, are adequately summarized only if grouped or presented in terms of indices or figures ranged within 10 percent of the actual figure. If a particular portion of data is voluminous, use ranged figures for at least one percent of the voluminous portion.*

*Responses, or portions thereof, that are not adequately summarized may be rejected from the record of this proceeding.*

4. Submit the statements required regarding limited release of business proprietary information under the provisions of an APO. U.S. law permits limited disclosure to representatives of parties (e.g., legal counsel) of certain business proprietary

information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:

- a. a statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or
- b. a statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that release.

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. As discussed above, you must state in the upper right-hand corner of the cover letter accompanying your questionnaire response whether you agree or object to release of the submitted information under APO (*e.g.*, May Be Released Under APO or May Not Be Released Under APO). (*See* section 351.304 of Commerce’s regulations for specific instructions.<sup>8</sup>)

5. Place brackets (“[ ]”) around information for which you request business proprietary treatment. Place double brackets (“[[ ]]”) around information for which you request proprietary treatment and which you do not agree to release under APO.
6. Provide to all parties whose representatives have been granted APO access and who are listed on Commerce’s most recent APO Service List, a complete copy of the submission--proprietary document and public version, except for that information which you do not agree to release under APO. (APO service lists, as well as public service lists, are maintained at <http://enforcement.trade.gov/apo/apo-svc-lists.html> under the “People’s Republic of China” and then “Steel Propane Cylinders.” If you exclude information because you do not agree to release it under APO, you must submit the complete business proprietary version, wherein information in double brackets has been excluded. This version of the response must be marked “Business Proprietary/APO Version-- May Be Released Under APO” on the cover page. For parties that do not have access to information under APO, please provide a public version only.

**Note:** A chart summarizing AD/CVD document filing requirements can be found at <http://enforcement.trade.gov/filing/index.html>. Detailed and supplemental information concerning APOs, including the APO Handbook, a complete set of APO regulations, and APO application forms and service lists, can be found at <http://enforcement.trade.gov/apo/index.html>.

---

<sup>8</sup> If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (*see* 19 CFR 351.304(d)). However, any information which you withdraw will be taken out of the official record and will not be used in our determination.
